

RIGHT

LEFT

- Margin
- Seam
- Edge of product
- Bleed limit 5-5 mm (background must fill it)

Graphical elements on the two sides of the mask must be independent.  
They cannot hang over from one side to the other.

resolution: min. 300 DPI

colours: CMYK

formats: TIFF, PDF, EPS, AI, CDR

- The green line indicates the area all non-background object-texts, logos, etc.
- The dash line indicates the visible graphics on the final product after stitching.
- The pink outline indicates the maximum size of graphic visible on the cut fabric.
- The black line indicates the size of the required graphics including bleed.
